2) The OP includes the line that reads, "Pharmacists will have access to a database that will ensure that the patient is seeking to obtain the drug legally." Really? If this database exists and has the ability to be a digital version of the late great Johnny Carson's character, Carnack, then why don't the other 49 states have access to this "Wonder Algorithm"? I suspect that the article is referring to the State of Florida's version of the PMP (Prescription Monitoring Program) database
