Reporters and patients' lobbies often seize the range's high end, drop the low end and hype the disease's prevalence with statements such as "Researchers estimate that as many as 30 million ..." Even from authoritative, disease-specialist institutes such as NIH, "you're much more likely to get an overestimate than an underestimate" of a disease's prevalence, said Susan Ellenberg, a professor of biostatistics at the University of Pennsylvania School of Medicine in Philadelphia

While Western firms see India as a potential market with its rapidly growing economy, they are wary of the country's laws which don't protect intellectual property rights. Big Pharma critics on the other hand feel a win would jeopardise the supply of cheap generic drugs to millions in India and abroad, since India is the leading exporter of cheap generic drugs. "The stakes are very high on both sides," said Leena Menghaney, a manager in New Delhi for Medecins Sans Frontieres (MSF), which relies on Indian-made generic drugs to treat AIDS and other diseases in Africa and many poor countries.
