Adding in several post-game beers only heightens the risk of stomach issues. So, are there any alternatives to popping one's fair share of anti-inflammatories to deal with musculoskeletal pain? Prevention of course is the best option — maintaining physical fitness overall, stretching before activities and avoiding the blend of alcohol and sports are all good ways to ward off injury. Acetaminophen (Tylenol), while not without its own adverse event profile, is not implicated in this latest FDA advisory
